Art Unit: 1761

1. Claim 8 is objected to because of the following informalities: In claim 8, "any of" should be cancelled. Appropriate correction is required.

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 3-8 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. There is no support in the original disclosure for "5% seasonings and additives", as set forth in paragraph 3, Paper No. 100804.

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 3-8 are rejected under 35 U.S.C. 103(a) as being unpatentable over Pews in view of Uozumi or Lee et al.

Applicant is referred to the reasoning set forth in paragraph No. 8, Paper No. 100804.

6. Applicant's arguments filed May 12, 2005 have been fully considered but they are not persuasive. Applicant's contention that the sausages in Pews are not dried, smoked

Art Unit: 1761

and cooked is without merit. Pews recites that the sausages are "part-dried at 5-10<sup>0</sup> C" and "hot-smoked". These steps results in dried, smoked and cooked sausages.

Further, applicant's question as to how one selects fruits from Pews is answered by referring to the second sentence in Pews which states that "fruit ingredients are finely cut" and mixed with the meat paste.

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
